

Hello, I'm

## RUBAIT RESHAD

BSc Computer Science Student, IUB (Studying)

Sports Journalist, FIFA

I'm a sports journalist looking to get into the field of tech. I'm currently interested in web development and machine learning. I am learning web development with html,css,php,bootstrap 5 & laravel and I'm learning to build neural network models from scratch using python, numpy, tensorflow etc.

Previously I have built games, worked with robotics at FabLab, participated in competitive programming. When I am not pursuing my education for a better career, I play football to keep myself mentally and physically fit.

### About Me
